

### Built for Quality & Confidence.

- **Wide Stainless Steel Sheets:** Fewer seams, less corrosion—more durability where it counts
- **Automated Welding:** Precision welds for unmatched strength at critical joints
- **Channel Heat Panels:** Engineered for superior heat transfer and structural integrity
- **Proven Engineering Legacy:** decades of innovation backed by strategic acquisitions that built the Wabash legacy

### Tailored for Your Needs.

- **Application-Based Packages:** Built around your specific operational needs
- **Fully Custom Builds:** Collaborate directly with our team to design your exact spec
- **3-Year Limited Warranty:** Standard coverage that's got your back
- **Nationwide Service Network:** Coast-to-coast support to keep you moving

### Performance & Durability Combined.

- Precision temperature control ensures the integrity of contents
- High-strength duplex stainless steel heat panels offer unmatched performance and durability, with advanced heat systems and corrosion-resistant welds for reliability
- Integrated safety features like ladders, walkways, and ergonomics enhance worker protection and ease of maintenance
- Exclusive integrated outlet sump ensuring complete drainage reducing heel and product contamination
- Built for longevity—up to 30 years on the road
- Low maintenance, minimal downtime, and optimal performance
- Varied material options to balance durability and weight
- Proudly made in the U.S.A. for over 75 years and backed by a 3-year limited warranty and nationwide service centers
