

# WABASH™

When it comes to solving the challenges of transporting chemical, food grade or sanitary product, **look no further than Wabash.**

## What makes Wabash different?

Innovation is in our DNA and why our solutions last longer and hold a high residual value. What's more, partnering with Wabash ensures you have an industry expert who is always looking ahead in your best interest, building solutions that stand up to what the future holds, and will remain steadfast in safeguarding our communities, the environment, and consumer health.

## Tank Trailer Solutions for Your Demanding Applications

**3A Sanitary**

- Reduced weight and low center of gravity
- No thermal deflection between rings from heat/cold cycles
- No bacteria growth or build-up on internal tank

**Chemical**

- Long lasting — for up to 30 years on the road
- Premiere craftsmanship and gap-free welds
- Corrosion resistant

**Food Grade**

- Strict adherence to FDA and other food-grade standards
- Suited to carry a wide product variety
- Maximum payload capacity
